PROFESSIONAL SUMMARY

B.Com Commerce undergraduate at Mount Carmel College, Bangalore (2025–2028) with demonstrated skills building LBO buyout models, DCF valuations, FP&A budget reports, SQL databases, and Power BI dashboards. NPTEL Corporate Finance certified. Actively targeting roles in Private Equity, Investment Banking, Equity Research, and Corporate Finance.

PROJECTS & FINANCIAL MODELS

Project 1 — J.B. Chemicals & Pharmaceuticals: KKR Buyout & Torrent Exit Model

Modeled KKR's controlling acquisition (July 2020 @ ₹372.50 post-split) and Torrent Pharma strategic exit (2025 @ ₹1,600.00 / share). Integrated an 11-year 3-statement forecast (FY20–FY30E) with 0.00 variance, standalone DCF valuation (₹852.60 target), and LBO Value Creation Attribution Bridge (5.93x MoIC, 48.50% Gross IRR across 35% EBITDA expansion, 57% multiple re-rating, 8% deleveraging).

Project 2 — Tech Giants SEC Financial Database & Power BI Dashboard

Engineered a relational PostgreSQL 18 database ingesting 20 real SEC 10-K records (2021–2024) for 5 global tech titans (Apple, Microsoft, Amazon, Tesla, Alphabet), analyzing \$1.70 trillion in 2024 sector revenue. Wrote advanced SQL queries using RANK() OVER window functions, EBITDA margin calculations, and GROUP BY aggregations. Integrated with Power BI Executive Dashboard featuring custom DAX measures and a conditional formatting heatmap.

Project 3 — NexGen Tech DCF Valuation & Financial Model

Built an integrated 3-Statement Pro Forma Financial Model (2026–2029) for a simulated tech company with dynamic Base, Bull, and Bear scenario switcher, EBITDA margin forecasting, WACC calculation (11.91%), and a Two-Way DCF Sensitivity Matrix yielding a terminal valuation of ₹1.92 Crore (~\$230K).

Project 4 — FP&A Budget Variance Model & Power BI Dashboard

Engineered a comprehensive Q3 FP&A Budget Variance Model analyzing 10 expense line items across 5 departments. Replicated and visualised in Microsoft Excel and an interactive Power BI Desktop Dashboard featuring custom DAX measures, category slicers, clustered column visuals, donut charts, KPI cards, and green/red conditional formatting for real-time variance tracking.

SKILLS

Financial Modeling & Valuation: LBO Buyout Modeling, DCF Valuation, 3-Statement Pro Forma Modeling, LBO Return Attribution, Scenario Analysis & Stress Testing, Sensitivity Analysis, FP&A Budget Variance Auditing, WACC, NPV/IRR

Data & Analytics: SQL, PostgreSQL 18, Power BI, DAX Measures, Financial Data Engineering

Tools: Advanced MS Excel (XLOOKUP, VLOOKUP, Data Tables), MS PowerPoint, Google Sheets

Core Finance: Corporate Finance, Equity Management, Capital Structure, Discounting & Compounding, Financial Statement Analysis, Accounting Principles
